

Press Release – Pleasant Valley Recreation and Park District Senior and Community Recreation Facility Needs Assessment Survey

Contact: Mary Otten, General Manager at 805.482.1996 x 114 or at motten@pvrpd.org

Pleasant Valley Recreation & Park District (PVRPD) and the City of Camarillo are distributing a survey as part of the effort to better understand resident usage and prioritization of senior and community recreation facilities, programs, and amenities. Your input is needed in order to help shape the District's plan to reflect the community's desires.

Please support this effort by taking a few minutes to participate in this survey. A select number of random households will receive a survey in the mail beginning next week. Residents that don't receive a survey in the mail will have the opportunity to participate in an open link online survey that will be launched around November 8th. Everyone's participation and responses are very important. Even if you do not currently use the District's recreation facilities and park services, we would still like to hear from you.

We encourage you to discuss the survey questions with other members of your household so answers reflect combined opinions. ALL responses are important to us and will be kept confidential.

We appreciate and thank you for your time. The planning of future recreation facilities relies on the feedback from our residents!

If you have any questions regarding either the survey or the study please contact Mary Otten, General Manager at 805.482.1996 x 114 or at motten@pvrpd.org
